HIGH SPEED DRYING

The 1091 uses two jets of air to remove water from the hands, one for the top and one for the bottom. This dries the hands in under 10 seconds for fast and thorough hand drying.

POWER CONTROL

Heating control - switch heating element on or off for comfort and control over your power usage.

Intelligent airspeed adjustment - so you can reduce noise levels or keep the machine at maximum efficiency.

HYGIENIC

A HEPA filter ensures clean air is used to dry your hands. The machine also has an antibacterial coating to help keep the surfaces hygienic.

NO DRIPS

Water which is blown off the hands has to go somewhere. With the 1091 the water is collected in a drip tray. The drip tray also has the option to plumb to the waste permanently.

BLUE LED

A blue LED light guides the user to the airflow and adds a cool modern touch.

SLIM DESIGN

BD1091 hand dryer protrudes only 184mm from the wall.

10 SECONDS!**

BD1091 Technical Specifications

Voltage	220V-240V 50/60Hz, 7A,1650W(Hot) / 3.1A, 700W(Cold)
Motor Type	Brushless Motor, 22000RPM
Air Speed	85~105m/s (Adjustable)
Air Temp.	40°C (Room Temp. =25°C)
Decibel Rating	65dB @ 1m
Drying Time	7-9 seconds
Sensor Range	10-600mm
Protection Level	IPX1
Isolation	Class I
Water Tank	YES
Air Filter	Antibacterial HEPA Filter
Net Weight	10.5 kg
Unit Size (mm)	W298 x H669 x D184
Finish	White,Black/White/Silver ABS
